

# Idle VMs

## Description

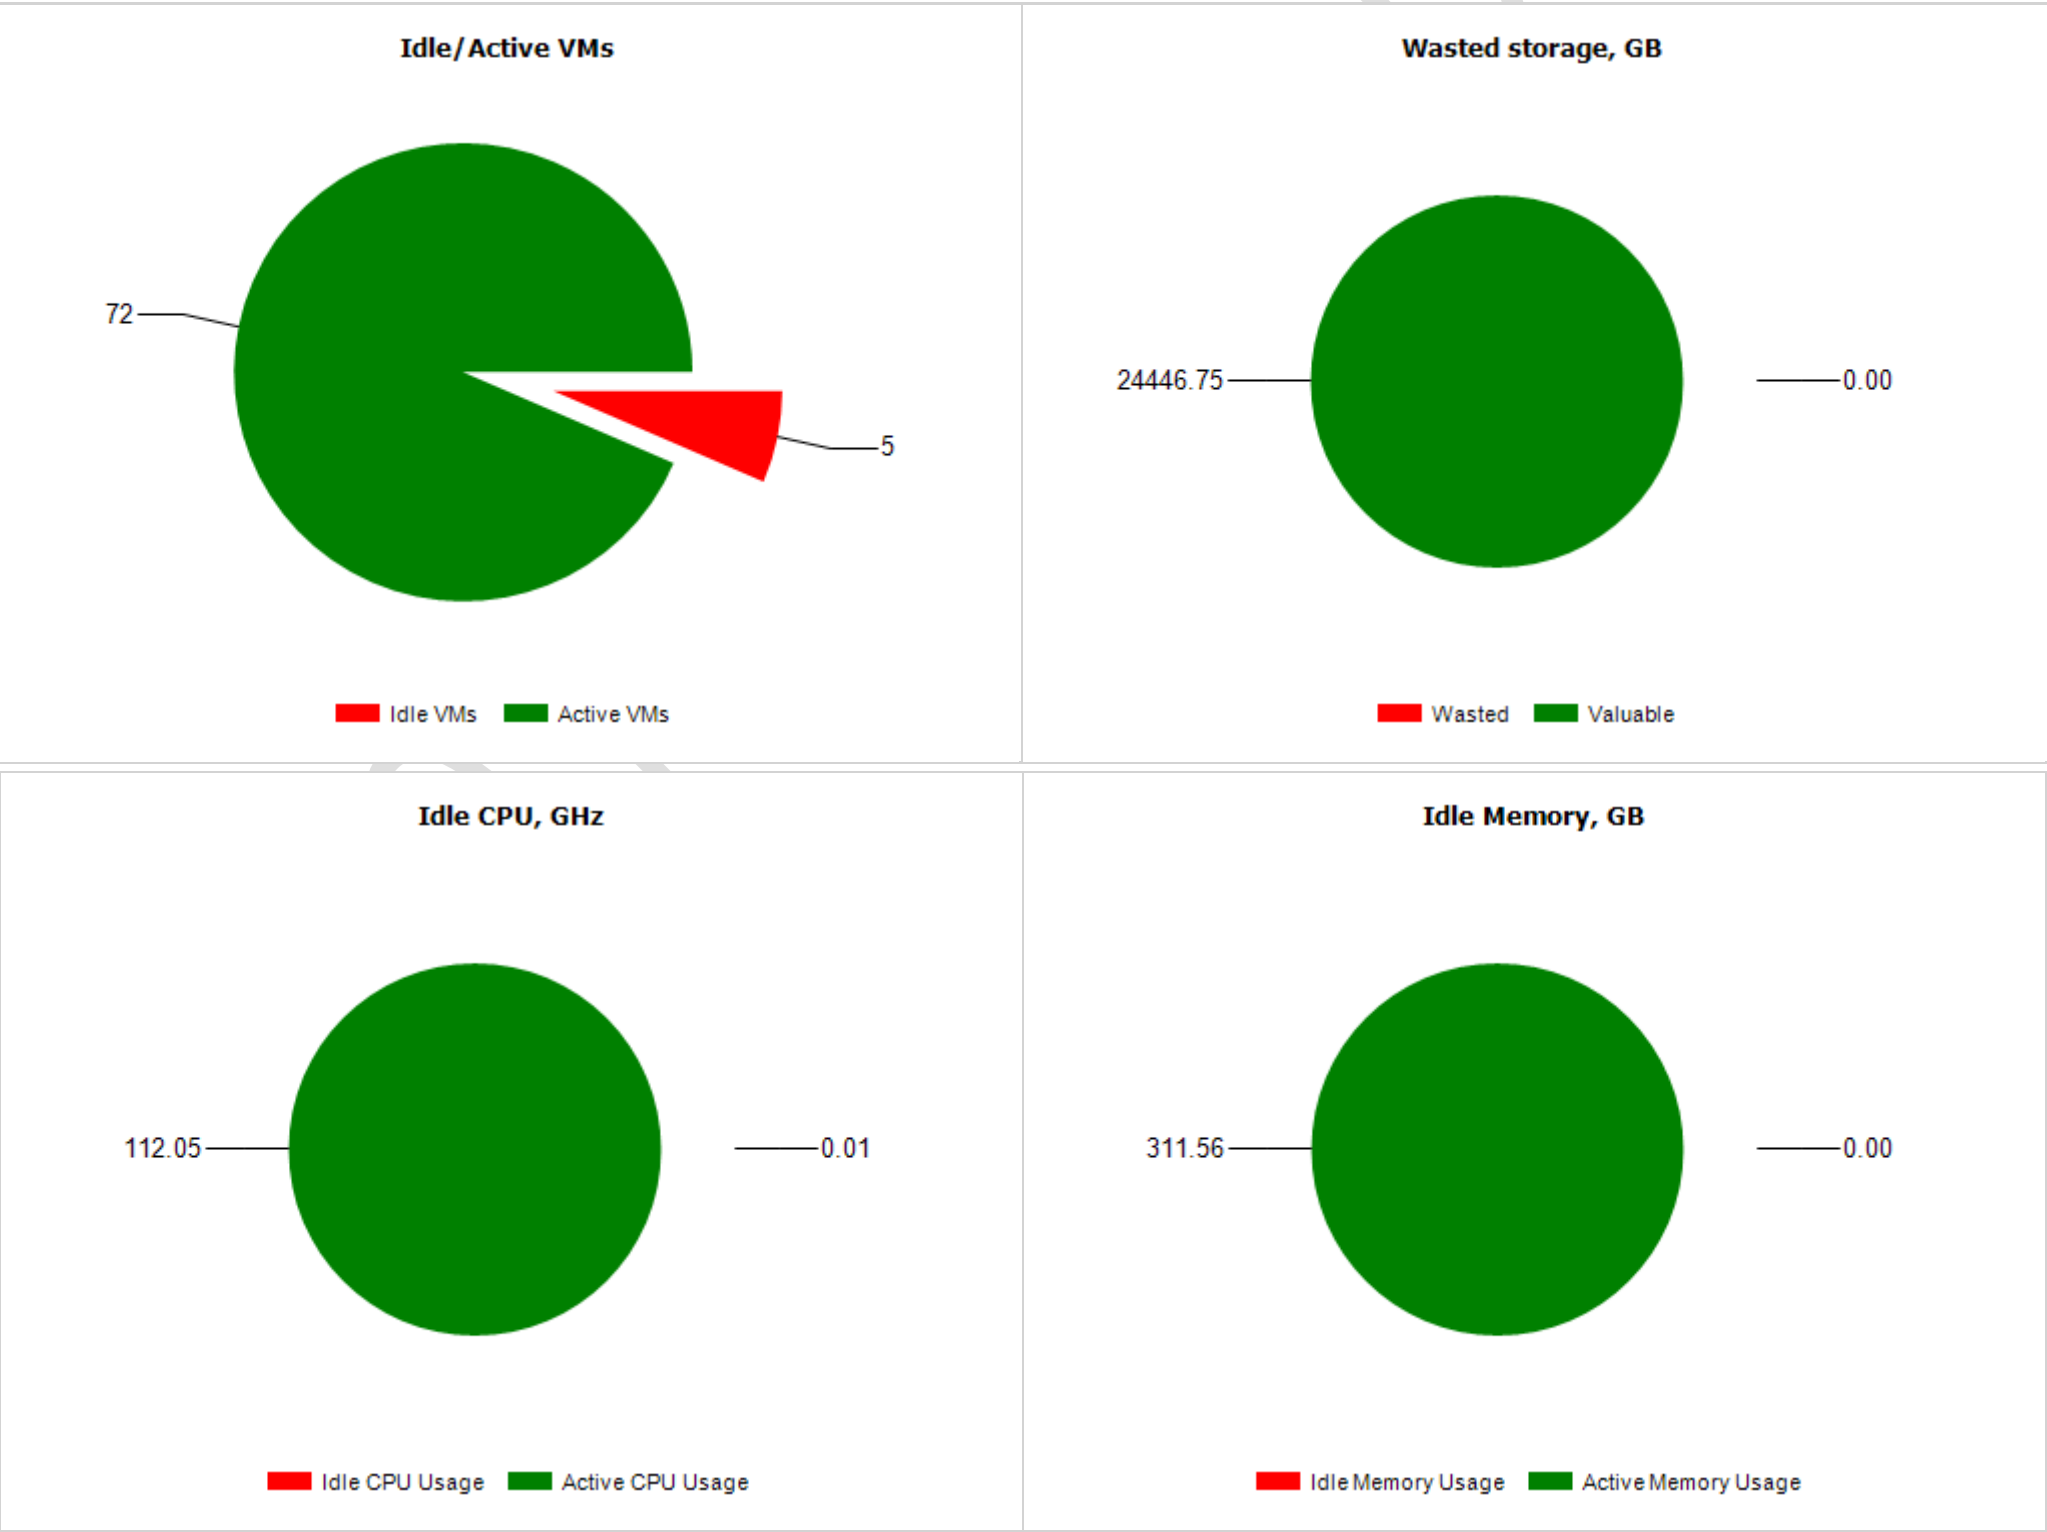

This report shows a list of idle VMs in terms of CPU, memory, disk and network utilization parameters.

## Report Parameters

**Root Object:** Virtual Infrastructure  
**Interval:** week  
**CPU usage:** 0.1 GHz  
**Memory usage:** 0.26 GB  
**Disk usage:** 20 KBps  
**Network usage:** 1 KBps  
**Time in the selected state:** for more than 90 % of the time  
**Business View object(s):**

## Summary Information

**Total VMs:** 77  
**Idle VMs:** 5

## Details

vCenter Server	Cluster/Host	Virtual Machine	CPU Usage (MHz)	Memory Usage (GB)	Disk Usage (KBps)	Network Usage (KBps)	Time In This State (days)
192.168.0.240	t110-2-1esxi.climb.domain	1					
		test01	3.00	0.01	0.00	0.00	7
