

Active Snapshots

Description

This report shows a list of all VMs with snapshots, including the oldest and the largest snapshots in your virtual environment.

Report Parameters

Scope: 192.168.0.242

Snapshot age: older than 1 week

Business View object(s):

Do not report on VMs created by Veeam replication jobs: True

Summary

Details

Virtual Machine	Snapshot Name	Location - ESX host	Snapshot Directory	Snapshot Create Time	Snapshot Size (GB)	VM State
